

Manassas Junction, and if their prospects decline, the government will be able to set at naught any quantity of 7-10 per cent Treasury notes, and to sell 1 per cent bonds at a premium. But if none of these things occur, if past disasters befall us, if people become discouraged—all possible, though perhaps not probable, contingencies—the foolish and unbusinesslike restrictions contained in the \$250,000,000 loan act will prevent Mr. Chase getting any money whatever, and will compel Mr. Lincoln either to make peace or to call Congress together again, under very unpropitious circumstances, in September or October. If we should be reduced to these extremities, the country will remember that responsibility mainly rests on the shoulders of Senator Fessenden, of Maine.

The business of the Sub-Treasury was as follows to-day:—

Table with columns for Receipts and Payments. Receipts include Treasury Notes (\$82,983,36), Bonds (\$10,000,000), and other items. Payments include Bonds (\$56,702,39) and other items.

The Morris and Essex Railroad Company has declared a semi-annual dividend of three and a half per cent, payable August 1; the Vermont and Canada Railroad a dividend of four per cent, payable August 15. This is the first dividend since June, 1854; but hereafter regular payments of four per cent are expected to be made on the first days of June and December.

The Bank of Louisiana has declared its seventh semi-annual dividend of five per cent and an extra dividend of five per cent, payable to resident stockholders on and after the first Monday in August. Northern stockholders, who reside in the United States, cannot receive their quota, in person or through attorneys.

The Africa, at Cape Race, with dates to 20th, reports cotton active at an advance of 1/4, breadstuffs dull, consols 89 3/4 a 89 1/2. The British papers blunder as usual.
